

נשיא מדינת ישראל
PRESIDENT OF ISRAEL

Jerusalem, 12 March 1978

Mr. William C. Norris
Chairman of the Board
Control Data Corporation
Minneapolis, Minn. 55440

RECEIVED

MAR 20

W. C. NORRIS

Dear Mr. Norris:

I must thank you most sincerely for your letter of February 8, 1978, brought me by Dr. Robert Chinn. It was good to learn that you had read with interest Professor Yaakov's proposal for a Science and Industry Town in Galilee. I am doing my best to encourage examination of its feasibility, in the hope that the plan may indeed become reality, for the benefit of all concerned - industrialists, engineers, scientists, and our entire economy.

I am grateful for "Two Suns Arcology: A Concept for Future Cities", which you so thoughtfully sent me. These are indeed revolutionary approaches, and I would very much wish to study the models.

With the completion of my term as President, I plan to return to my scientific work this summer, and I will be travelling abroad more freely. I do hope that when I visit the United States, I shall be able to communicate with you and benefit from your kind suggestion that I may be enabled to see a number of the new technologies important to the urban area.

With best wishes,

Sincerely,

Ephraim Katzir
