Dear Bill,

I recently received, through the kindness of Norb Berg, a copy of the remarks which you made at the June 2 program at the University of Minnesota for the Microelectronic and Information Science Center.

As usual, you have clearly identified and explained the need for increased efforts toward technological advancements with a focus on the need for cooperation between the private and public sectors, and especially including the university, as we strive for this progress.

Your words of wisdom will be most helpful to me as we continue our efforts in the areas of science and technology. Thank you for your creative and steadfast leadership and for your continuing friendship.

Sincerely,

A handwritten signature in blue ink that reads "Rudy".
