Dear Dr. Hawkins:

Reference is made to your recent and stupid letter urging Control Data not to sell products to Communist Russia, and advising that I should be well aware of Communist tyranny, so forth, so forth, so forth.

Not being a mind reader I cannot figure out what you mean by etc., etc., etc. Rather than writing me with little more than etceteras, why didn't you write and ask about Control Data's position on trade with the Communists before going off half-cocked and writing such a letter. You obviously have little knowledge about Control Data's position or activities. If you would, you might understand that there are advantages to the United States in trade with the Communists.

Our position on trade with the Communists is explained in the enclosed article, "High Technology Trade with the Communists". If you have further questions after reading the material, write me.

Sincerely yours,

William C. Norris

Dear Sir:

I urge you as a freedom loving American and a user of your products not to sell your products to Communist Russia. After what has happened in Communist controlled Afganistan and the murder of our Ambassador, after what is happening in Iran, after what is happening in etc, etc, etc, you should be well aware of the Communist tyranny. Please withhold your products and the sale of these products to Communist Russia.

Sincerely,

G.W. Hawkins, M.D.
